

RESEARCH AND PRODUCTION COMPANY OF
ARMORED AND PROTECTIVE CONSTRUCTIONS

**PRODUCTION AND SUPPLY OF ARMORED CONSTRUCTIONS
AND BODY ARMOR FACILITIES**

WWW.NPK-BRIZK.RU

Our company has been producing and supplying armor materials and armor facilities within 8 years. The following is included in the production list:

ENGINEERING PROTECTION FACILITIES:

- armor and explosion proof control towers
 - armored hood
 - mobile Permanent Fire Position
 - arm and bank vaults
 - bunkers
 - safekeeping of valuables room
 - guard cabin individual safe rooms and individual bunkers
 - spaced armor and gates
 - ex-, tamper-and bulletproof gates
 - engineer obstacles
 - and other bullet-,ex-and tamperproof constructions.
- Including customization production.

INDIVIDUAL PROTECTIVE EQUIPMENT:

the wide range of armor jackets from NIJ-I till NIJ-4 protective grades, being, produced on the base of modern armor materials:

- metal
- ceramic
- Plastic
- aramide fiber
- armor pots
- mantelets.

DEFENSE AND CONTROL CABIN

The defense and control cabin is constructed from armor blocks and provides personnel protection.

1.

OUTER DEFENSE AND CONTROL CABIN

A MODULAR-TYPE ARMORED SECURITY SYSTEM
NIJ 1 – NIJ IV CLASS BULLET-PROOF AND BLAST-RESISTANT. INSTALLED PRIOR TO ENTRY/EXIT

2.

INNER DEFENSE AND CONTROL CABIN

A MODULAR-TYPE ARMORED SECURITY SYSTEM
NIJ 1 – NIJ IV CLASS BULLET-PROOF AND BLAST-RESISTANT. INSTALLED INSIDE SECURE FACILITIES

GUARD TOWER

PROTECTS THE SENTRY FROM LIGHT WEAPONS, SHRAPNEL AND SHOCK WAVE AND PROVIDES VISUAL ALL-AROUND CONTROL OF THE SURROUNDING TERRITORY AND CONDUCTING ARMED DEFENSIVE ACTION.

A.

CAN BE CONSTRUCTED TO SUIT ANY CLIMATE INCLUDING REGIONS WITH HIGH SEISMIC ACTIVITY

B.

HEIGHT UP TO 20 M

C.

PROVIDES MAXIMUM BULLET AND BLAST RESISTANCE

ARMORED HOOD

THE ARMORED HOOD IS USED FOR EQUIPPING CHECKPOINTS AND ALSO FOR PERMANENT INSTALLATION ON PROTECTIVE ENVELOPES, CRITICAL AND STRATEGIC FACILITIES.

1.

PROTECTS THE SENTRY FROM LIGHT WEAPONS, SHRAPNEL AND SHOCK WAVE

2.

PROVIDES VISUAL ALL-AROUND CONTROL OF THE SURROUNDING TERRITORY AND CONDUCTING ARMED DEFENSIVE ACTION

SAFE ROOMS. WEAPON STORAGE ROOMS

Provide facilities protection of safe rooms, weapon storage rooms, drugs and other facilities of limited access. Technical resistance means manufactured by our company will ensure an adequate security level.

All products are manufactured in accordance with GOST system and Ministry of internal affairs and the Central Bank of the Russian Federation standards.

WINDOW BLOCKS

WINDOWS ALONG WITH DOORS REQUIRE SECURING IN THE FIRST PLACE. AFTER ALL, WINDOWS REPRESENT A SOFT SPOT IN THE PROTECTIVE STRUCTURE.

WE DEFINE THE FOLLOWING ARMORED AND SECURE WINDOW TYPES:

1.

TAMPER-PROOF WINDOWS

They bear the function of partial facilities protection

2.

BULLET-PROOF WINDOWS

Protecting the windows from fire-arms is achieved by using steel patches and multilayer armored glass which dampens the bullet's energy.

3.

BLAST-RESISTANT WINDOWS

The frame is equipped with additional elements that create a robust construction and prevent the glass from deformation in case of damage

Door blocks

- Bullet-proof
- Tamper-proof
- Blast-resistant

All safety doors are a security arrangement providing the safety of people and valuables from penetration, light weapons impact and penetration by means of detonating the door.

The block is made of high-endurance metal and consists of a frame, canvas, special filling agent and locks. Each door can be equipped with additional features (door assist, trays, weapons etc) depending on Customer's requests

CONSTRUCTIONS FOR BANKS

REINFORCED CONSTRUCTIONS FOR BANKS ARE A TECHNICAL PROTECTIVE DEVICE MADE FROM ARMORED METAL OR REINFORCED CONCRETE PANELS, ARMORED DOOR, ARMORED CASH DESK WINDOW MADE OF BULLET-PROOF GLASS, ARMORED CASH-TRAY ETC.

IT INCLUDES CASH OPERATING UNITS, BANK DEPOSIT BOXES, VAULTS ETC.

ANY REINFORCED CONSTRUCTION IS CUSTOM-MADE BASED ON THE REQUIRED SAFETY LEVEL, LOCATION AND OTHER FACTORS

ENDLESS OPTION OF LAYOUT AND DESIGN ARE AVAILABLE DEPENDING ON THE CUSTOMER'S REQUIREMENTS.

ALL MANUFACTURED ARMORED CONSTRUCTIONS COMPLY WITH THE CENTRAL BANK OF THE RUSSIAN FEDERATION GUIDE-LINES, DEPARTAMENTAL STANDARDS OF PRODUCTION ENGINEERING, THE MINISTRY OF INTERNAL AFFAIRS TECHNICAL REINFORCEMENT OF FACILITIES REQUIREMENTS.

ARMORED VEHICLES

WE REINFORCE ANY PRODUCTION CAR TO NIJ 1 - NIJ IV BULLET-PROOF CLASS.
WE ALSO PRODUCE VIP CUSTOM-MADE CARS. WE ALSO PRODUCE SECURE
CASH DELIVERY VEHICLES AT THE HIGHEST PROFESSIONAL LEVEL.

INDIVIDUAL BUNKERS. PERSONAL SECURE ROOMS

A fully autonomous secure room equipped with all communication means. In its essence it is a real personal bullet-proof and blast-resistant bunker with a strong safety door which will protect you and your family

THE ROOM CAN BE BUILT INTO AN EXISTING ROOM OR
CONSTRUCTED SEPARATELY.

THE SECURE ROOM HAS A MODULAR DESIGN AND IS BASED
ON A «HOUSE IN HOUSE» PRINCIPLE, IT CONSISTS OF FLOOR,
CEILING AND WALLS ELEMENTS AVAILABLE IN ANY SIZE.

THE ROOMS ARE EASY TO INSTALL AND DO NOT DEPEND
UPON THE ARCHITECTURAL CHARACTERISTICS OF THE
BUILDING, AT THE SAME TIME PROVIDING MAXIMUM
PROTECTION DURING AN ACTIVE ATTACK.

THE CUSTOMER DECIDES ON ITS DIMENSIONS

ALL OUR PRODUCTS CAN BE MANUFACTURED TO MATCH
THE HIGHEST STANDARDS OF BULLETPROOF, TAMPER-
PROOF REQUIREMENTS AND BLAST-RESISTANCE.

BULLET-PROOF AND TAMPER-PROOF SECURE GATE

NIJ 1 - NIJ IV BULLET-PROOF CLASS , 1-4 TAMPER-PROOF CLASS AUTOMATIC, WITH REINFORCED HINGES, WITH WEATHER-RESISTANT ELECTROMECHANIC DRIVE, WITH WEATHER-RESISTANT COATING.

ALL PRODUCTS ARE MANUFACTURED IN ACCORDANCE WITH THE MINISTRY OF INTERNAL AFFAIRS, THE CENTRAL BANK OF THE RUSSIAN FEDERATION, THE MINISTRY OF DEFENCE OF THE RUSSIAN FEDERATION, MINISTRY OF NUCLEAR ENERGY OF THE RUSSIAN FEDERATION REQUIREMENTS AND HAS BEEN REWARDED CERTIFICATES OF COMPLIANCE BY THE FEDERAL AGENCY ON TECHNICAL REGULATING AND METROLOGY

FIREARMS SHOOTING RANGE

WE OFFER We offer modular shooting ranges 25, 50 or 100 meters in length with a different number of gunner places and of any bullet-proof class according to GOST standards. All shooting ranges are quick to install;

Bullet-proof shooting range interior (walls, ceiling, doorways), manufacturing and installation of target bullet stoppers, equipping shooting ranges (range officer cabin, gunner baffle-walls, firing points etc.) for different protection classes according to the Customer's technical documentation.
